

AI DISCLOSURE STATEMENT

3D Life Strategies — Growth Assessment & Personalized Report

Effective: Starting Beta Release 2026 | Version 1.0

1. What Is This Document?

This disclosure explains how 3D Life Strategies uses artificial intelligence (AI) to generate your personalized 3D Strategy Report. We are committed to transparency about the role AI plays in your growth journey — and equally committed to the truth that no algorithm replaces your God-given wisdom, your coach, or your own discernment.

Please read this document before completing your 45-question Discovery Assessment.

2. What AI Technology We Use

AI Provider	Anthropic, Inc. — Claude AI Model
Model Role	Report generation, goal synthesis, and learning prompt creation
Data Sent	Your anonymized survey responses across Body, Mind, and Spirit dimensions
Output	A personalized 3D Strategy Report with SMART/SMET goals and suggested prompts

Anthropic is a safety-focused AI company. Their models are designed with responsible use principles. You can learn more at anthropic.com.

3. How the AI Uses Your Information

When you complete your Discovery Assessment, your responses are submitted to the Claude AI model via a secure API connection. The AI analyzes your answers across the Body, Mind, and Spirit dimensions and produces a narrative report with:

- A holistic summary of your KSA (Knowledge, Skills, and Abilities) profile

- Personalized SMART and SMET goal recommendations for a 12-week growth cycle
- Custom learning prompts designed to catalyze growth in your identified areas
- Suggested focus areas aligned with biblical stewardship principles

Your data is used solely for the purpose of generating your report. We do not sell, share, or use your responses for advertising or unrelated profiling.

4. What AI Cannot Do

Important Limitations — Please Read

- ✓ The AI does not provide clinical, psychological, or medical diagnoses of any kind
- ✓ The AI does not replace pastoral counseling, licensed therapy, or professional coaching
- ✓ The AI may occasionally produce inaccurate, incomplete, or culturally insensitive output
- ✓ The AI does not have awareness of your full life context — only what you share in the assessment
- ✓ The AI report is a starting point for reflection, not a final verdict on your growth journey

Your 3D Strategy Report is a tool — a mirror, not a judge. All recommendations should be reviewed with a trusted coach, mentor, or spiritual advisor before acting on them.

5. Your Rights & Controls

Right to Know

You have the right to know that AI is generating your report. This document fulfills that obligation. By proceeding with the assessment, you acknowledge this disclosure.

Right to Human Review

You may request that a 3D Life Strategies coach manually review your assessment responses and report at any time. Contact us at discover@3dlifestrategies.org.

Right to Withdraw

You may withdraw your assessment data at any time prior to report generation by contacting us directly. After report generation, anonymized data may be retained for product improvement under our Privacy Policy.

Right to Correction

If you believe your report contains a material error or mischaracterization, you may request a review and correction within 30 days of report delivery.

6. Data Security

Your assessment responses are transmitted to Anthropic's API over encrypted (HTTPS) connections. We do not store your raw responses on third-party servers beyond what is necessary to generate your report. Anthropic's API usage follows their data handling and privacy policies, which prohibit using API inputs to train their models without consent.

We are currently in BETA. Our data handling infrastructure is actively being improved. If you have questions about data security during this phase, please reach out before completing the assessment.

7. Our Commitment

"We believe technology is a stewardship tool — not a substitute for the work of the Holy Spirit, the wisdom of community, or the courage of personal commitment. AI helps us listen more carefully. The work of growth is yours."

— 3D Life Strategies Team

8. Acknowledgment

By proceeding with your Discovery Assessment, you confirm that:

- You have read and understood this AI Disclosure Statement
- You consent to your anonymized assessment responses being processed by Claude AI (Anthropic) to generate your 3D Strategy Report
- You understand that the AI report is not a clinical, medical, or therapeutic tool
- You are 18 years of age or older, or have parental/guardian consent to participate
