

DATA HANDLING POLICY

3D Life Strategies — Discovery Assessment & AI Report Pipeline

Effective: Beta Release 2026 | Version 1.0

Applies to: Individual Users (B2C) and Organizational Partners (B2B)

1. Overview & Purpose

This Data Handling Policy describes how 3D Life Strategies, LLC ("3DLS," "we," "us") collects, processes, stores, shares, and deletes personal data submitted through the 3D Life Strategies Discovery Assessment and AI Report pipeline.

We take data stewardship seriously — not merely as a legal obligation, but as an expression of the integrity we preach. This policy applies to:

- Individual users completing the Discovery Assessment directly (B2C)
- Members of churches, organizations, or cohorts using 3DLS through a partner account (B2B)
- Coaches and administrators accessing participant data through partner dashboards

Stewardship Principle: We will never collect more data than we need, hold it longer than necessary, or use it in ways you have not consented to. Your story belongs to you.

2. What Data We Collect

2.1 Discovery Assessment Responses

The 45-question survey collects responses across three dimensions. This data is considered sensitive personal information and is handled with heightened protection.

Dimension	Data Type Collected
Body	Physical health habits, energy levels, exercise, rest, and physical limitations
Mind	Learning style, cognitive strengths, professional knowledge areas, emotional intelligence markers
Spirit	Faith background, spiritual gifts, purpose alignment, community involvement, biblical stewardship orientation

Profile	Name, email address, and optional demographic context (age range, vocation, location)
---------	---

2.2 Technical & Usage Data

We may automatically collect limited technical data when you access our platform:

- Browser type and device category (for display optimization)
- Session timestamps (to protect against duplicate submissions)
- IP address (retained only for fraud prevention, not linked to your profile)

2.3 What We Do NOT Collect

We do NOT collect or store:

- Clinical or diagnostic health data (we are not a medical provider)
- Financial information beyond payment processing (handled by third-party payment providers)
- Social Security numbers, government IDs, or biometric data
- Communications between you and your coach (unless explicitly submitted through our platform)
- Data from minors under 18 without verified parental consent

3. How We Use Your Data

Purpose	Data Used	Legal Basis
Generate your 3D Strategy Report	Assessment responses (all 45 questions)	Your explicit consent
Produce AI-powered goals & prompts	Anonymized assessment data sent to Anthropic API	Your explicit consent
Coach collaboration	Your report and goal data, shared only with your designated coach	Consent + legitimate interest
Product improvement (Beta)	Aggregated, de-identified response patterns — never individual profiles	Legitimate interest
Platform security	IP address, session data	Legitimate interest
Legal compliance	Minimum required data if legally compelled	Legal obligation

We do not use your personal data for advertising, third-party marketing, or sale to data brokers — ever.

4. AI Processing — Anthropic / Claude

Your assessment responses power our AI report engine. Here is exactly what happens during that process:

Step 1	You submit your completed 45-question Discovery Assessment on our platform.
Step 2	Your responses are transmitted over an encrypted HTTPS connection to Anthropic's Claude API.
Step 3	Claude processes your responses and generates a personalized 3D Strategy Report, including SMART/SMET goals and learning prompts.
Step 4	The generated report is returned to our platform and stored securely in your participant profile.
Step 5	Your raw assessment responses are retained in our secure database. The Anthropic API does not retain your data beyond the processing session per Anthropic's API data policy.

Anthropic's API usage policy prohibits using API inputs to train their models without explicit consent. Your assessment responses are not used to train AI models.

5. Who We Share Data With

Recipient	What They Receive & Why
Anthropic, Inc.	Anonymized assessment responses — solely to generate your AI report. Governed by Anthropic's API Terms.
Your Designated Coach	Your full 3D Strategy Report and goal data, only with your consent at enrollment.
B2B Partner Organization	Aggregate completion rates and anonymized cohort insights only. Individual reports are never shared without participant consent.

Payment Processor	Billing information only (e.g., Stripe). 3DLS never stores full credit card data.
Legal Authorities	Only if required by valid legal process (subpoena, court order). We will notify you where legally permitted.
No one else	We do not sell, rent, or trade personal data to any third party for commercial purposes.

6. Data Retention Schedule

We retain your data only as long as necessary for the purposes outlined in this policy:

Data Type	Retention Period
Assessment responses (raw)	24 months from submission, then deleted or anonymized
3D Strategy Report	Duration of active account + 12 months after account closure
Coach session notes (if submitted)	Duration of coaching relationship + 6 months
Technical/session logs	90 days, then auto-deleted
Anonymized aggregate data	Indefinite (for product research — not linked to individuals)
Legal hold data	As required by applicable law

You may request early deletion of your data at any time. See Section 8 for your rights.

7. Security Measures

We implement the following safeguards to protect your data during our Beta phase and beyond:

- **Encryption in transit:** All data transmitted between your browser, our platform, and Anthropic's API uses TLS 1.2+ encryption
- **Encryption at rest:** Stored assessment data is encrypted in our database
- **Access controls:** Only authorized 3DLS staff and your designated coach can access your individual data
- **API key management:** Our Anthropic API credentials are stored securely and never exposed client-side
- **Incident response:** In the event of a data breach, we will notify affected users within 72 hours of discovery, consistent with applicable law

Beta Notice: We are actively building toward SOC 2-aligned security practices. During Beta, our infrastructure is limited to family and friends. We will publish a full security posture before public launch.

8. Your Data Rights

Regardless of your state of residence, 3D Life Strategies honors the following rights for all users:

Right	How to Exercise It
Access	Request a copy of all personal data we hold about you
Correction	Request correction of inaccurate or incomplete data
Deletion	Request deletion of your data (subject to legal retention obligations)
Portability	Request your data in a portable format (CSV or PDF)
Withdraw Consent	Withdraw consent to AI processing at any time — note this may limit report generation
Opt Out of Research Use	Opt out of anonymized aggregate data use for product improvement

To exercise any of these rights, contact us at:

Email: discover@3dlifestrategies.org
Subject line: "Data Rights Request — [Your Name]"
Response time: Within 30 days of verified request

9. Special Provisions for B2B / Organizational Partners

When a church, nonprofit, or organization deploys 3DLS to its members, the following additional terms apply:

- The partner organization acts as a data controller for their members' participation. 3DLS acts as a data processor on their behalf.
- Partner organizations must ensure their members receive this Data Handling Policy and the AI Disclosure Statement before completing the assessment.
- Partner administrators may access aggregate cohort data only — never individual participant reports without that participant's explicit consent.
- Partners may request a Data Processing Agreement (DPA) for enterprise or regulated environments. Contact us to request one.

- Partner data is logically separated in our systems — one organization's data is never accessible to another.

If you are a church or organization evaluating 3DLS for your community, we are happy to walk through our governance documentation in a discovery call. Contact: discover@3dlifestrategies.org

10. Changes to This Policy

We may update this Data Handling Policy as our platform evolves and as regulations change. When we make material changes, we will:

- Notify active users by email at least 14 days before changes take effect
- Post the updated policy at 3dlifestrategies.org with a revised effective date
- Request renewed consent where required by the nature of the change

Continued use of the platform after the effective date constitutes acceptance of the updated policy.

11. Acknowledgment

By completing the 3D Life Strategies Discovery Assessment, you confirm that you have read and understood this Data Handling Policy and consent to the collection and processing of your data as described herein.
